

## Miscreant Competitor

Why do we hide when miscreants are here not to bless?  
Some competitors are after us for their unjust pound of flesh!  
One of them has a product SS by name,  
And we introduced Streptokinase to play a competitive game.

SS wants to overtake our Streptokinase.  
Their strategies are no more for a guess.  
They are getting untruth told by others against us  
To shatter our efforts in ways, not certainly magnanimous!

Jackals can be frightened to wane,  
As the lions step out from the hidden den.  
Let us so, come out with skills and fervor  
That the miscreant had certainly tasted never!
